DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 7, 2003 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. Claims 3-17 and 35-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure, as originally filed, does not disclose "but not in a non-radial direction opposite the direction of rotation of the housing that would retard rotation of said nozzle housing" and "for directing liquid outwardly of said housing in a non-radial direction opposite to the direction of rotation" recited in claim 35.

4. Claims 39-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 39 recites "said housing is formed with a second of said nozzle orifices." Its parent claim 35 recites "at least one nozzle orifice." It is uncertain how many nozzle orifices are being claimed. For example, if three nozzle orifices constitute "at least one nozzle orifice," does claim 39 require two nozzle orifices or six nozzle orifices?

Allowable Subject Matter

5. Claims 44-46 are allowed.
